

OCMS Digital Newsletter November 2021

OCMS Community Partner Engagement

For the past several years, Randa Seifeldin, wife of Raouf Seifeldin, MD, has been coordinating with OCMS an outreach project on behalf of our doctors to observe Make a Difference Day. Make A Difference Day is a national holiday celebrated on the fourth Saturday in October. The kind acts to others on this day make an important difference in the lives of others in our community. Randa has volunteered her time to purchase over \$600 of personal hygiene items in conjunction with OCMS for donation to our community partner, Lighthouse of Oakland County. This year, the OCMS donation was well received due to the economic hardships many individuals and families are facing. Other OCMS community partners include CARE House, Gift of Life and Shades of Pink.

OCMS Annual Meeting

This year, the virtual OCMS Annual Meeting welcomed Jason Schairer, MD as the new president for 2021-2022. Dr. Schairer graciously accepted the position, furthering OCMS's mission to empower physicians and advance medicine.

Gratitude was extended to Paul Bozyk, MD for his leadership and expertise as he stepped down from the presidential role. Ashok Gupta, MD, resumed his role as treasurer and secretary. David Lee, MD, was welcomed to his new role on the board of directors. Other members of the board

include: Sharon Geimer, MD; Barry Auster, MD; Vashali Bhargava, MD; Anna Di Lorenzo, MD; Sherwin Imlay, MD; Rahul Mehta, MD; Christopher Milback, MD, MBA; Donald Peven, MD; Manveen Salaja, MD; Joseph Skoney, MD; Joann Smith, MD.

Paul DeChant, MD, MBA, guest speaker presented, "Addressing the Root Cause of Burnout in the Age of Covid19," and answered members' questions afterwards.

Jason Schairer, MD, is serving as OCMS 2021-2022 president.

Can A Court Order Medical Treatment?

Dan Schulte, J.D. addresses if a court can order medical treatment be provided to a patient when the patient's physician deems it unnecessary or potentially harmful.

Michigan for Advancing Collaborative Care Teams (MiACCT)

Trained experts. Compassionate caregivers. A true team of individuals, each playing an essential role and doing their part—with the patient at the center of it all.

It's the kind of care Michigan patients expect for themselves and their loved ones. And frankly, we believe it's the kind of care they all deserve. With that in mind, we're excited to announce we've joined a new coalition—**Michigan for Advancing Collaborative Care Teams (MiACCT)** that solely focused on preserving and strengthening the health care teams we all rely on for our care. And we believe it's a coalition that couldn't have come at a better time.

Every day, across the country, powerful special interest groups work to undermine the team-based approach to health care all in the interest of making a buck. The policies they promote take physicians, away from their patients and jeopardize the patient care and safety in the process.

Thankfully, **MiACCT** is here to fight back. Made up of a growing number of health care providers and patient advocacy organizations united and committed in the belief that the time-tested, physician-led, patient-centered model of care is the very best way to increase health care access without compromising patient safety or quality of care, **MiACCT** exists to fight for what's best for Michigan's patients. That's what they need. That's what they deserve. And we're happy to be a part of it.

ICD 10 AND CPT UPDATES FOR 2022

Thursday, December 9, 2021
8:30 - 10:00 am

Join Kathy Jo Uecker, Consultant and Owner at
